## Column Dumper CD1000

RELIABLY ENGINEERED WITH PRODUCTION VERSATILITY

Processors should be able to focus on critical operations and not have to worry about auxiliary equipment. That's what Mepaco's CD1000 Column Dumper delivers; a Column Dumper that is heavily built, engineered for easy maintenance, built to strict sanitary design standards, and like our processing equipment solutions, modifiable to meet specific production requirements.

**Customizeable**  
**Capacity**  
**Cycle Times**  
**Dump Angle**  
**Speed Ratios**  
**Carriage Designs**

## Reliably Built

- 10-ga stainless on 120" dump heights, 7-ga stainless on 144" column heights
- Full penetration welds
- Built-in safety features including (3) proximity switches, e-stop.
- Completely wired motor starter in NEMA 4X enclosure
- Minimum maintenance on broke motor, chain, bearings and proxy switches

## Versatile Options that Drive Manufacturing

- 120", 144", 150", 160" and 180" column heights
- 400, 600, or up to 1000 lb capacity
- Dump angles up to 60 degrees
- Permanent floor set, or portability packages
- Left or Right handed dump configuration
- Rolling buggy, meat bins, barrels
- Extended chute options
- Stainless chain and bearings available
- Customized speed ratio available
